Dear Sir / Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith a copy of the Press Release titled " *Raminfo Secures ₹14.14 Crore Contract from Tripura Govt to Build 'UNNOTI' Citizen Services Platform*", which is being issued today.

This is for your information and record.

Thanking you,

For **RAMINFO LIMITED**

K. Kiran Kumar Reddy
Company Secretary & Compliance Officer

PRESS RELEASE

Raminfo Secures ₹14.14 Crore Contract from Tripura Govt to Build 'UNNOTI' Citizen Services Platform

- 'UNNOTI' will make services faster, easier, and more accessible for citizens across 60 govt departments and 300+ schemes
- Aims to empower 41 lakh citizens of Tripura

Hyderabad, July 16, 2025: Raminfo Limited, a leading technology solutions provider, has been awarded a prestigious project valued at approximately **₹14.14 crore** by the **Directorate of Information Technology, Government of Tripura**. Raminfo will **develop, deploy, implement, and maintain the Services & Benefits Delivery Platform – 'UNNOTI'**, under the Tripura Rural Economic Growth & Service Delivery Project (TRESP). This is a major milestone for the company as it expands its e-governance footprint to enhance public service delivery and streamline citizen-government interaction through a unified digital platform.

The UNNOTI platform is designed to revolutionize public service delivery in Tripura by creating a unified, secure, and scalable system that connects departments, schemes, and citizens through one digital interface. Aimed at **directly benefiting over 41 lakh citizens**, UNNOTI embodies the "Ease of Living" vision of the government to ensure easy access to faster and transparent delivery of essential services across the state.

The project aligns with the key objective of TRESP to enhance rural economic growth and improve delivery of essential services and benefits by strengthening digital governance frameworks. As part of this initiative, more than 60 key government departments and 300+ schemes will be brought onto a common platform enabling proactive and seamless delivery of citizen benefits.

In line with the "Ask Data Once" principle, the platform will eliminate repetitive data submissions by citizens across departments, ensuring a hassle-free, integrated service experience. The system will also include a citizen portal, service dashboards, and mobile applications to maximize public outreach and operational transparency.

Raminfo Limited will act as the system integrator, responsible for end-to-end development, integration, and 26 months of post-deployment support and maintenance. The company will leverage its domain expertise in emerging technologies such as **AI, ML, analytics, and IoT**, ensuring that the platform remains robust, intelligent, and adaptable to evolving citizen needs.

L. Srinath Reddy, Managing Director of Raminfo Limited, said,

"This award strengthens Raminfo's leadership in the e-Governance space. UNNOTI is not just another technology platform — it's a citizen-centric initiative designed to empower the people of Tripura through inclusive digital transformation. Raminfo brings its proven expertise in delivering large-scale technology solutions like AI, ML etc., for government ecosystems, and this project will further consolidate our presence in the North-East region of India."

"We are proud to be part of Tripura's digital journey and will continue to create impact-driven solutions that enhance governance and citizen engagement."

This award further solidifies Raminfo's position as a key technology partner for several government-led digital initiatives across India, especially in citizen service delivery, smart governance, and social welfare systems. The UNNOTI project represents another milestone in the Company's commitment to driving digital inclusion and service innovation across the country.

About Raminfo Limited

Raminfo Limited, (BSE: 530951) is a legacy player with 30 years of experience in e-governance and other tech solutions. They're a company listed on BSE.
